

Pregnancy Termination Referrals

Fall 2017/Spring 2018

In addition to counseling support and information, Tang Social Workers (642-6074) or the Student Health Insurance Office (642-5700) can help you with general financing and insurance questions. **An approved authorization is required for student health insurance (SHIP) coverage to apply. Authorizations may be initiated by a UHS medical provider or Social Services.** When you schedule your appointment with one of the providers listed below, **identify yourself as a UC Berkeley student**, and verify that the physician is currently an Anthem Blue Cross provider. If you are not on SHIP, ask the receptionist about the cost for the service and accepted methods of payment.

Please note: Abortions will be covered **100% in-network** and 60% out-of-network. The annual SHIP deductible for services provided outside of the UHS will not be applied for this procedure. The plan year is August 1st through July 31st.

The information listed below is subject to change. Please verify the details with the provider's office when you schedule your appointment.
