University Health Services
Student Volunteer Health Clearance Requirements
revised 1/4/17 cmo

As of 8/1/16, the following health clearance requirements apply to all:

- Health Workers assisting at UHS flu clinics;
- SHEP peer educators conducting HIV antibody testing; and
- UHS student volunteers (submit only after receiving notification that you have been selected to be a volunteer)

### TB Clearance

- TSpot (blood draw) option – STRONGLY PREFERRED
  - 1 test is required within the past 30 days
- PPD skin test option – NOT PREFERRED DUE TO TIME LAG
  - 2 plantings and 2 readings are required – at least 1 week apart and no more than 1 year apart, with the most recent planting within the past 30 days
- Note: completion of TB screening form on eTang does not fulfill this requirement

### Measles, Mumps, Rubella

- 2 doses are required - first dose no more than 4 days before your 1st birthday, second dose at least one month later
- If you have a history of having had measles, mumps and/or rubella, you will still need to obtain a blood titer showing immunity

### Varicella

- 2 doses are required - first dose no more than 4 days before your 1st birthday, second dose at least one month later
- If you have a history of having had chicken pox, you will still need to obtain a blood titer showing immunity

### Tdap

- 1 dose is required – must be after age 7
- Note: Dtap and Td do not fulfill this requirement

### Hepatitis B

- 3 doses are required
- If you have a history of having had Hepatitis B, you will still need to obtain a blood titer showing immunity

### Influenza

- 1 dose from the current vaccine year is required (may be completed after starting your role)
- Or, complete an Influenza Vaccine Declination Form
