A variety of highly specialized services are available, including gender reassignment, facial reconstruction and breast reconstruction. Below is a list of commonly referred to providers with areas of expertise in gender affirming procedures. Note: this list is not exhaustive and is subject to change. Please confirm if the provider is still participating in the Blue Shield of CA PPO network.

Please Note: It’s important to know what your financial responsibility will be and if you need to seek approval from the health plan before proceeding with services. Knowing this information can save you time and money and ensure you are receiving appropriate care. Prior to services being performed, it is recommended the provider contact Wellfleet to verify the member eligibility and benefits. Once the provider confirms the members out-of-pocket amount (i.e., copay, deductible, and coinsurance) the provider may send a bill to you after the procedure is completed or ask for payment upfront prior to the service being done, up to the out-of-pocket amount.
