

# KNOW YOUR STI STATUS.

\*STI: sexually transmitted infections

Self-directed STI testing is available to you here at the Tang Center.

STI screenings offered:

Chlamydia

Gonorrhea

HIV

Syphilis

We have information online to help you decide if self-directed testing is best for you and which test(s) you need.

No appointment needed.

Order your self-directed test using the eTang online patient portal.

- 1 Sign into [etang.berkeley.edu](http://etang.berkeley.edu).
- 2 Select “Messages.”
- 3 Select “New Message” then you’ll see the ordering screen.

“But, is self-directed testing right for me?”

Self-directed testing isn’t the right choice for everyone, for example if you have symptoms or have other risks where self-directed testing is not adequate or can be misleading. Find out more information online!
