

WE ENVISION

a campus that actively cultivates better health and wellbeing

Bold Health Leadership

Elevating health as essential to campus sustainability, viability and humanity.

Enterprising Investment

Making deliberate investments in our people, our technology, our space, and our financial sustainability and establishing ourselves as a model for a healthy workplace.

Predictive Prevention

Working upstream to identify critical trends, harness innovation, and adopt evidence-based prevention practices.

WE STRIVE TO
ensure health for all through leadership, expertise, and discovery

Dismantling Anti-Black Racism

Deconstructing and reshaping policies, procedures, and systematic barriers rooted in white supremacy in order to create racial equity, to foster understanding and empathy, and to increase access to opportunities for Black staff and students so that all feel valued and seen.

Access to Seamless, Integrated Care

Unwavering commitment to access for all to timely and excellent collaborative, interdisciplinary services from UHS providers and partners.

Research and Data-Driven Advances

Developing creative and bold ideas with transformative potential in college health.
